

PLAN FOR PLAY TESTING:

What do we want to learn:

We want to learn about how the difficulty and pacing throughout the game keep the player engaged or create frustration.

Selected testers:

The developers and players who volunteer.

Observation:

We would then observe the players' emotions and engagement while the player also ensures that it's neither too easy nor too hard.

Focused Questions:

Which parts were frustrating?

Did you get the feeling of Rollins Campus and Community while playing?

Is it too difficult or too easy?

Is it engaging?

Documentation:

We will then document these results and take them into consideration for further improvement.
